

# Paint Better Pictures !

From this . . .

. . . to This

I strongly believe that we humans are endowed by the Creator with Creative Energy.

Our task as visual artists is to allow our Creative Energy to express itself no matter which media we use.

That is the challenge for all art makers.

Whether you paint recognizable objects or interesting patterns of shape and color, I hope you will experience a connection with your own Creative Energies and feel refreshed and inspired.

Starting January 7 - Thursday Evenings - 6 to 8 PM

at

The Old Fire House Art Center
